

# STARVIEW DIGITAL SIGNAGE SERVER DSS-1500

Copyright © 2023 Starview Technologies Private Limited. All rights reserved. Singapore Headquarters: 60 Kaki Bukit Place, #05-19 Eunos Techpark, Singapore 415979 Website: www.starviewtech.asia or www.starviewtech.net | Email: sales@starviewint.com | Tell: +65 31575338

## DESCRIPTIONS

### **Digital Signage SERVER Hardware**

- OS Windows 2016 Server & latest servicer pack
- Internet information server 7.0/7.5 (clean install/ not configured)
- Intel Quad core 2 or better (recommended Intel Quad core)
- Hard disk 500 + GB (recommended 1TB for extra media storage)
- 2 GB DDR memory (recommended 4 GB DDR3)
- Requires 3 static IP addresses (server side only)
- Requires 3 prefixed domains (i.e.: master.yourdomain.com)

## FEATURES

### Design your layouts

- Design: Create Layouts for all of your design ideas, split the screen however you want and drop in Widgets to show your video, images and text. Povwerful widgets integrate content from third parties to keep your display fresh and up to date.

- Preview: Bring your design to life in the browser and see how it will look on screen. Play it through from start to finish to get the complete picture.

- Templates: Save your finished creation for reuse later, to share with others or to present a consistent corporate branding. Quickly build new layouts from templates for a smooth workflow.

## Schedule your Content

- Scheduling: One off, repeating and always-on events, DSS-1500 has everything covered. Split your calendar into pre-defined Dayparting for ultimate ease of Scheduling.

- Campaigns: Add Layouts to Campaigns to ensure they are shown in a certain order and to make scheduling easier.

- Priority: Give each Schedule a priority so that you can be sure your messages are shown at the right time, alongside complimentary Layouts.

#### Manage your Network

- Display admin: See all the Displays on your network in real-time and monitor their status. Collect diagnostic information, request a screen shot and send commands to be executed immediately.

- Proof of play: Collect proof of play information from each Display so that you know your content has been shown. See this data by Layout or Widget in our powerful reports.

- Groups: Use Display Groups to organise your Displays into logical sets, then schedule and report on them. Nest Display Groups to create a hierarchy that best reflects your organisation.

## **User Access Control**

- User: DSS-1500's built in User Authentication system keeps your content safe and secure, ensuring that only authenticated users have access. Enterprise users can use "single sign on" via SAML for integration with an existing user directory.

- Groups: Add users to one or more Groups to effectively organise and grant system access.

- Features and sharing: Control User/User Group access to CMS features and share items between users.
