STAR VIEW International

Starview PC-8000A

Paperless multimedia conference management platform with management software, is responsible for handling conference function module, conference themes, participant information, conference topic, voting content and othezr before meeting information preset, with the application function of different kinds of meeting file information upload and sharing, staff permission management and setting, meeting information real-time recording etc

Feature

- Adopt 1U upper frame type, adopt high quality 1.0mm galvanized steel plate, the structure is stable; Superior heat dissipation design, four double ball high speed fans excellent heat dissipation.
- Support hot plugging, up to 4 hard disks, RAID 0, 1, 5, 10.
- Dedicated remote port, supporting remote manafement.
- It has 4 gigabit network ports with port aggregation function.
- Dedicated server power supply, supporting redundant power supply.

Specifications

Model	PC-8000A
CPU	Xeon E3-1230v5 (quad-core, 3.4GHz)
RAM	ECC DDR4 8G
Hard Disk	2TB
Disk Array	Support RAID 0, 1, 5, 10
Network Card	4 Gigabit network ports, support port trunking; 1 remote port
Video Output	1 VGA port
Other	1 serial port, 6 USB ports (4 in rear panel, 2 in front panel)
Voltage Input	100-240V, 50/60Hz
Dimension	660x430x43.5 (mm)
Operatin Temperature	-10ºC~60ºC
Relative Humidity	5%-90%
