Starview PC-8000B

Paperless multimedia conference management platform with management software, is responsible for handling conference function module, conference themes, participant information, conference topic, voting content and othezr before meeting information preset, with the application function of different kinds of meeting file information upload and sharing, staff permission management and setting, meeting information real-time recording etc

Feature

- Adopt 2U upper frame type, adopt high quality 1.0mm galvanized steel plate, the structure is stable; Superior heat dissipation design, four double ball high speed fans excellent heat dissipation.
- Support hot plugging, up to 4 hard disks, RAID 0, 1, 5, 10.
- Dedicated remote port, supporting remote manafement.
- Rich network interface: 2 gigabit network port, 1 gigabit optical port, supporting multi-mode.
- Adopt E5 series processor with powerful performance

Specifications

Model	PC-8000B
CPU	Intel Xeon E5-2620v3 (6 core, 2.4GHz)
RAM	ECC DDR4 16G
Hard Disk	4TB
Disk Array	Support RAID 0, 1, 5, 10
Quantity Of Hard Disks	The 8 hard disk extraction boxes are equipped with locking device, and the slide rail design makes the hard disk extraction more convenient
Network Port	1 Gigabit optical port, 2 gigabit network ports and 1 remote port
VGA	1
Other	1 serial port, 6 USB ports (4 in rear panel, 2 in front panel)
Voltage Input	100-230V, 50/60Hz
Size (LxWxH)mm	550x440x88
Operating Temperature	-10ºC~60ºC
Relative Humidity	5%-90%
Weight	4.0Kg
