EXTREME-NARROW BEZEL LCD VIDEO WALL

The SG5517 Extreme-narrow bezel Video Wall are high-performance LCD panels with an extremely narrow 1.7mm combined bezel width and are used to create impressive, near-seamless video walls. Featuring advanced panel matching, the brightness and color of each panel comes calibrated, eliminating much of the image adjustments typically required when installing video walls. The result of this barely there bezel is a seamless video wall with incredible impact, whether in a board room, control room, retail space or anywhere else you want your audience to focus on the image.

FEATURES

Nearly Invisible 0.85 mm Even Bezel

An exceptionally Extreme-narrow 1.7mm combined bezel enables content to be displayed as one immersive, seamless image, eliminating distortion.

Bright Non-Glare Picture Quality 24/7

An impressive 500-nit brightness and non-glare panel provides high visibility 24/7, regardless of ambient light.

WIDE View Content from Any Angle

Wide viewing angles allow viewers to get clear and accurate information, regardless of video wall layout or location.

Modern, Slim Design

The SG5517 display features an ultra-slim depth . It saves space and creates a clean, modern look for retail or other public spaces.

Accurate, Factory-Calibrated Color

Starview's multi-step factory calibration process tunes video walls to uniform brightness and color throughout multiple displays.

Easy, Cost-Saving Mobile Calibration

Color Expert Pro Mobile lets even non-experts easily calibrate the white balance of a video wall simultaneously with a mobile camera.
