

DIGITAL SIGNAGE KIOSK FREE STANDING **STARVIEW SC-CSS SERIES**

STARVIEW SC-CSS SERIES

We're all used to seeing digital signage and a location without a sign is starting to stand out! Starview Digital Signage is a low-cost, high-performance solution to launch your signage needs into new heights! Digital Signage content is now so much more than just fixed images and text and with Starview you can transform your designs simply and quickly by integrating third party content to give a personalized experience.

The Starview SC-CSS delivers advertising and information in any type of indoor facility, featuring a sophisticated design and 24/7 flexible operation. Boasting an aluminum hairline finish and robust glass surface, it can reliably withstand external shocks while also blending in with its surroundings.

S-CLOUD DIGITAL SIGNAGE (FREE)

PLAYERS

Benefit from the wide range of players the Starview platform offers, including Windows, Linux, webOS, Tizen and Android. Enjoy the stability of players natively developed for that platform, as well as the flexibility of HTML functionality.

LAYOUT

Easy with drag and drop layout designer

SCHEDULE

Timing is everything, choose who sees your content and when with our easy to use calendar scheduler.

CONTROL

Check proof of play and view diagnostic information straight from your web browser for ultimate control.

WIDGETS

For easy integration with third party content

SUPPORT

Whether you choose to host your CMS with us, or take a commercial support offering, our support team is there to lend a hand.

Website: www.starviewint.com | Email: sales@starviewint.com | Tell: +65 31575338

Design your Layouts

Create Layouts for all of your design ideas, split the screen however you want and drop in Widgets to show your video, images and text. Powerful widgets integrate content from third parties to keep your display fresh and up to date.

Preview

Bring your design to life in the browser and see how it will look on screen. Play it through from start to finish to get the complete picture.

Templates

Save your finished creation for reuse later, to share with others or to present a consistent corporate branding. Quickly build new layouts from templates for a smooth workflow.

Schedule your Content

One off, repeating and always-on events, Starview has everything covered. Split your calendar into pre-defined Dayparting for ultimate ease of Scheduling.

Campaigns

Add Layouts to Campaigns to ensure they are shown in a certain order and to make scheduling easier.

Priority

Give each Schedule a priority so that you can be sure your messages are shown at the right time, alongside complimentary Layouts.

Manage your Network

See all the Displays on your network in real-time and monitor their status. Collect diagnostic information, request a screen shot and send commands to be executed immediately.

Proof of Play

Collect proof of play information from each Display so that you know your content has been shown. See this data by Layout or Widget in our powerful reports.

Groups

Use Display Groups to organise your Displays into logical sets, then schedule and report on them. Nest Display Groups to create a hierarchy that best reflects your organisation.

User Access Control

Starview's built in User Authentication system keeps your content safe and secure, ensuring that only authenticated users have access. Enterprise users can use "single sign on" via SAML for integration with an existing user directory.

User Groups

Add users to one or more Groups to effectively organise and grant system access.

Permissions

Control User/User Group access to CMS features and share items between users.
