

SV-P SERIES

STARVIEW TOUCH DISPLAY WITH AI MEETING CAMERA

KEY FEATURES

- › UHD Resolution with 350nits
- › Powerful Octa-core CPU and Quad-core GPU
- › Zero Bonding Technology
- › Slim Design with Android 12.0
- › Wireless Screen for Portable Devices
- › Built-In Camera and Microphone (optional)
- › Powerful Interactive Board Software
- › OCR Function for Smart Handwriting Recognition
- › Infrared Touch Technology
- › OPS Slot Available

DESIGNED TO BE COMPATIBLE WITH CHRISTIE'S IMAGE CONTROL SYSTEM

Starview Touch Display with AI Meeting Camera SV-P Series

Supported control solution	Switchers and AV distribution	• Terra Controller • Terra Receiver • Terra Transmitter
	Video wall processors	• Hedra Standard • Hedra Pro-KVM • Hedra Pro-Video
	Image processors	• Spyder-S-Series • Mastering Gateway • Spyder X80

Products "Touch Display with AI Meeting Camera SV-P Series" manufactured by Starview, are paired with Christie Terra Switchers and AV distribution

Solutions beyond matrix switching for AV-over-IP system architectures

Based on off-the-shelf 10G Ethernet components, the Terra solution allows for the design of simple, flexible and highly-scalable system architectures that deliver great performance and user experience at a drastically lower total cost of ownership.

- **Terra Transmitter** - Supply audiovisual sources and control signals with uncompressed, zero-frame latency, artifact-free content over 10G networks.
- **Terra Receiver** - Deliver audiovisual sources and control from an SDVoE system to displays and other devices. Benefit from full signal management including videowall magnification, KVM switching and extension, aspect ratio management, and Multiviewer for confidence monitoring.
- **Terra Controller** - The Christie Terra Controller gives you complete, secure operational control and management over Terra devices and SDVoE systems.

Christie Terra

Christie Hedra

Paired with Christie Hedra Video wall processors

Whether it's mission-critical operations or monitoring sources for energy and utilities, your team needs to securely display, arrange, and operate multiple sources to make quick, informed decisions. And that's where the new Christie® video wall processors come in.

With Christie Hedra™, you get secure, real-time access to your data that you can control from virtually anywhere for seamless collaboration and sharing of critical information so you can make those decisions.

Paired with Christie Spyder Image processors

Deliver the highest quality content every time

No matter what your canvas is - a live event, sports venue, control room, or corporate space - Christie® image processors and compositors can deliver the highest quality content with the lowest latency.

Christie Spyder-S Series: A revolution in compositing and processing

The Spyder-S Series redefines everything you know about compositing and processing with a better solution for live events, sports venues, and broadcast. Featuring a modular, scalable technology that lets you scale your system by combining individual nodes for nearly limitless inputs, outputs, and megapixels with ultra-low latency. It's everything you need and nothing you don't.

Christie Spyder X80: Designed for demanding events

An undisputed leader in its class, Spyder X80 is a powerful multi-screen windowing processor that offers performance, control, and flexibility for the most demanding, spectacular experiences imaginable.
